

PATRICK ALLEN PEÑA

FULL-STACK DEVELOPER | BACKEND DEVELOPER

SUMMARY

A Fullstack Developer with strong expertise in building responsive, scalable web applications using modern technologies across both frontend and backend. A passion for clean code, performance optimization, and delivering seamless user experiences.

PROJECT

Learing Social Media Platform [Url](#)

- Developed a social media learning system enabling user registration, posts, and interactions with Next.js, TypeScript, PostgreSQL, and JWT authentication, focusing on security and performance.

StockHub (Inventory System) [Url](#)

- plemented a scalable PERN stack solution to streamline inventory operations, improve stock accuracy, and provide an intuitive interface for product management.

Personal Portfolio Website [Url](#)

- Built a responsive portfolio with React, Tailwind CSS, and Shadcn/ui to highlight projects, skills, and professional achievements.

Experience

Freelancer

- Worked on a client project using React.js, TypeScript, and Node.js, building a responsive and interactive web application, integrating backend APIs, and ensuring seamless user experience.
- Worked with PostgreSQL and MongoDB for database management and actively gained experience with MySQL while expanding overall development skills.
